Primary Examiner, Art Unit 1796

This application is a 371 of PCT/JP05/02881 (filed 02/23/05). The preliminary amendment filed 08/25/06 is entered. Claims 1-9 are pending.

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 03/23/09 has been entered.

The IDS filed 03/23/09 has been considered. An initialed copy accompanies this action.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 1, line 1, after "paste" add "--comprising: a conductive material; and --.

In claim 3, line 3, after "paste" add --comprising: a conductive material; and --.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Nima A. Seyedali on 02/26/09.

The following is an examiner's statement of reasons for allowance:

Initially, note that the instant claims are not patentably distinct from the claims (1-8) of copending S.N. 10/590,683. A provisional rejection has been made in the copending application. See MPEP 804.

The newly cited prior art, including the Chinese FAOM (p 1-2), have been carefully reviewed.

The references do not disclose or suggest the instantly required conductive paste comprising conductive material and specific combination of ethyl cellulose binder(s) and solvent. Additionally, it is noted that applicant has shown by direct comparative example that the claimed pastes compositions possess superior/unexpected results as compared to compositions outside the scope of the claims (see examples in specification).

Newly cited U.S. 6,589,446 is the English Language equivalent of CN1303104 (cited on 1449).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Kopec whose telephone number is (571) 272-1319. The examiner can normally be reached on Monday - Friday from 9:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on (571) 272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
